BOYS AND SMALL ENIGMA

Boys on farms, like boys in other places, want spending money, and are often sorely troubled to obtain it. They scarcely like to ask their parents for money to buy articles to please their fancy, and they have few opportunities to work out, for when neighboring farmers wish to hire help there is plenty of work on the farms where they belong. Their best chance to earn money appears to be in cultivating some crop at home that requires small capital to engage in, a small amount of land for its production, but which produces a considerable sum of money. The small fruits are excellent in these respects. They may be set out at times when the soil is too wet to be of good advantage, and may be cultivated at odd hours when there is little to do in the fields. They require but a small amount of land, and produce more money from an acre than any farm crop.

An English physician, stationed in Formosa, says: "The Chinese make, on the whole, very good patients. Occasionally some of them try our patience not a little. One takes a four days' supply of medicine away with him, the recipe bearing on it 'a spoonful three times daily, after each meal.' He comes back next morning for more, thinking to flatter you by stating that he drank the former quantity at one dose. Another has his arm carefully put up in splints, and on his next visit he brings his dressings in a separate parcel. They are great believers in internal administration, and, although he has only a cut finger, it is difficult for a Chinaman to see why he should not get some medicine to 'eat.'"

CRAB ORCHARD, LINCOLN COUNTY.

—W. M. Howard's is headquarters for cheap goods.

—Go to E. W. Jones' drug store for best brands of cigars and tobacco.

—Two dogs have been killed in our town this week, supposed to have had hydrophobia. They had every symptom of the disease.

—For the cash you can buy goods of W. M. Howard for 5 per cent. above cost and carriage. He will take pleasure in showing you his bills.

—Our Dramatic Society have changed their next play from the "Mock Trial" to the "Rent Day" and will produce the latter in about three weeks.

—Hiram Hiatt had four sheep killed by dogs last Monday night and he gives notice that he will hereafter kill any dog he finds on his place without his owner. We wish him success; may he take many scalps.

—Alfred Haley's house with all of its effects, was consumed by fire Sunday night. The house was nearly ready to fall in when the family awoke and some of them barely escaped with their lives. The fire originated from a defective flue.

—Mrs. H. L. Stegar wishes to inform the ladies that she has a well selected line of millinery, which all are invited to come and examine before purchasing elsewhere. Prices reasonable. She has in connection a first class dress making department, for which she solicits patronage.

—The sale of H. E. Miller, which took place here last Saturday, was well attended and the bidding lively. Everything brought fair prices. We are indeed sorry to give up so good a citizen as Mr. Miller.

He is a public spirited man and ever ready to do his part for the common weal. He will make Louisville his home in the future.

—A. J. Sigler's invoice of stock amounted to \$9,714. His notes and accounts will reach near \$30,000, \$10,000 to \$15,000 supposed to be good. Mr. Sigler is of the opinion that if he could have gotten an extension he could have paid out without any trouble. He has the sympathy of the entire community and we have this to say for him; there never was in our recollection a cleverer or more accommodating gentleman who ever sold goods in Crab Orchard.

We hope to see him come again.

—N. B. Hobbs departed this life on the 26th inst., after a lingering illness of consumption. He was buried in the honors of the order of the Odd Fellows in their lot.

The following resolutions were passed by Crab Orchard Lodge, No. 108 I. O. O. F., upon his death: WHEREAS, It has pleased an Allwise Providence to remove from our midst our worthy brother, N. B. Hobbs, Resolved, That in the death of Brother N. B. Hobbs this Lodge has lost a faithful member, the Order a consistent Odd Fellow and his family a kind husband and father and the community an upright, honest citizen.

2d. That the lodge-room be draped in mourning and the members wear the usual badge for the space of 30 days.

3d. That a copy of these resolutions be spread upon the minutes of the Lodge, a copy sent to the family of the deceased and that the INTERIOR JOURNAL be requested to publish same.

A DOG DIGGING INTO HIS MASTER'S GRAVE.

Thomas and Frank Bienville were killed in a railroad accident near Moberly, Mo. Before their death the two brothers owned a large Newfoundland dog, to which they were greatly attached. After the bodies of the dead men had been buried, the dog gave evidence of the profoundest grief by whining and howling in the most distressing manner. The occasional absence of the dog from the house where he had been left, and the evidence of digging left on his feet by clay adhering to them, caused some remark in the family, and it was concluded that it would be well to watch the dog. Accordingly, as the dog started off to exhumate the dead, he was followed to the graveyard. When the dog reached the cemetery he howled in the most distressing manner, and began to scratch into the double grave containing both the dead bodies. He had reached the coffin, but had done no violence to it. The grave was refilled, and the dog will be confined until the first will grief for his dead masters is over.

A CHEAP HAMMOCK.

Take a piece of Manila matting from two to three yards long and a yard and a half wide, bind or hem the ends firmly, then fasten each end to a piece of timber. These pieces should be five feet long, two inches thick, and should have holes bored about three inches apart the whole length. The matting is fastened by passing heavy twine from matting to hole, back and forth, really sewing the matting to the wood. For each end of the pieces of wood larger holes are bored, through which pass ropes to hang the hammock between two trees. This makes a cheap, comfortable and safe hammock. Being hung from four corners, there is no danger of rolling out, and half a dozen children can swing in it at pleasure.—Journal of Chemistry.

Laurel County Democratic Convention.

The meeting of the democracy of Laurel at London, April 26, was called to order by the chairman of the democratic county committee, E. H. Hackney, who stated the object of the meeting and explained that a vacancy of two made it necessary to fill the same in the county committee. Andrew Jackson was then made chairman of the convention and John Pearl secretary.

The following persons were selected by the chairman to draw up resolutions: M. T. Craft, Robert Jackson, Marion Walker, Smith Young, W. R. Jones, Elisha Bowling, Telford Young, John H. Jackson, A. L. Reid and R. B. Craft, who after retiring reported the following resolutions.

WHEREAS, We recall the bitter experience of past defeats, brought about by indecision and wavering measures and believing that now, of all times, democrats looking to party success and the prosperity of the country, should take a decided stand. Be it therefore

Resolved, By the democrats of Laurel county in convention assembled, that we denounce the present high protective tariff as a most odious and flagrant system of taxation, imposed to promote the interest of a favored few, by imposing burdens on the wants and necessities of the laboring poor, and assert that all that a government takes out of the pocket of individuals in the way of taxes, direct or indirect, for any other than its appropriate and legitimate purposes, is an invasion of their right to the enjoyment of the fruits of their own labor.

2d. That we favor a "Tariff for Revenue only," recognizing the fact that taxes are burdens to be imposed only for public purposes and not as private bounties.

3d. That we approve of the call for a State Convention to meet in Frankfort on the 7th day of May, 1884.

4th. That the delegates appointed to this convention to attend the State Convention be, and are hereby instructed, to spare no honorable efforts to secure for Hon. Samuel J. Tilden and Thos. H. Hendricks an unbroken delegation to the National Democratic Convention, which convenes in the city of Chicago on the 8th day of July next.

5th. That our delegates be, and are hereby instructed, to cast the vote of Laurel county for no man as a delegate to the Chicago Convention who is not pronounced in the tariff reform, and we respectfully submit to the State Convention, as our choice for delegates for the State at large the names of W. C. P. Breckinridge, J. Stoddard Johnson, Sam M. Burdett, and M. F. Brinkley, and Col. Mike Sautley and W. B. Smith as delegates for the 8th Congressional District.

6th. That we recommend the names of John C. Jackson and R. M. Jackson to fill the vacancies that have occurred in the county committee.

7th. That R. M. Jackson, M. T. Craft, A. L. Reid, Elliott Johnson, R. B. Craft, W. S. Young, Elisha Bowling, W. R. Jones, Marion Walker and all other good democrats be and are hereby appointed delegates to the State Convention.

8th. That the secretary be instructed to furnish a copy of the proceedings of this convention to the Courier-Journal, INTERIOR JOURNAL and Mountain Echo, with the request that they publish the same.

They were adopted and a resolution offered by M. T. Craft protesting against the formation of a new county out of parts of Knox, Laurel and Whitley was likewise adopted.

THAT EXPLAINS IT.

They were talking about Bob Ingersoll, when a Galveston parent spoke up, and said:

"I tried one of Bob Ingersoll's ideas the other day. He says he leaves his pocket-book in a bureau drawer, and his children are allowed to help themselves whenever they desire. I tried that, just to see how the thing would work."

"Well, didn't they bankrupt you?"

asked one of the crowd.

"Bankrupt me! Not much. You don't suppose I left any money in the pocket-book, do you? Bob don't say that he left any money in it. He just leaves the empty pocket-book in the bureau drawer, and they can help themselves as much as they please. Bob ain't no fool."—Galveston News.

REV. MR. GENUFLEX fell down stairs

Sunday morning, with a flower-vase in one hand, a pitcher of water in the other, a lamp-globe under his arm, and a china saucer tucked in his coat pocket. He was trying to carry all these things down stairs, and he succeeded. But when he got them to the bottom, and his anxious wife screamed from the head of the stairs to know if he had broken anything, he took an account of stock, and calmly reported that he had "broken everything but the Sabbath." "The only thing," petulantly commented his careful and economical wife, "that we could afford to break."

Mrs. SUSAN J. HENRY, widow of the late Capt. Patrick Henry, last surviving grandson of Patrick Henry, of Revolutionary fame, died a few days ago in Washington. Mrs. Henry inherited property which was lost during the war. For a number of years she was a clerk in the Treasury Department, and at the time of her death, had just received an appointment in the Agricultural Department.

W. P. WALTON.

THE New York Sun with its usual aptness says that the bill to create a Bureau of Labor Statistics, which passed the house with only nineteen dissenting votes, is a specimen of rank demagogism in legislation. There is already a Bureau of Statistics, with all the official machinery running and capable of doing the work which is proposed to be done by this project. A branch of the Agricultural Department is constantly employing in similar work. The bill substantially creates new officers for the advantage of politicians. Like other bureaus which have been created at Washington to multiply patronage and to reward partisans, this scheme starts out with a plausible grant of money. But in a year or two it would become a costly fixture on the Treasury, with no reasonable prospect of being abolished. Any proposition to repeal it would be met with the false cry that the laboring interest alone was to be proscribed, while all other interests were protected. Yet labor is the victim of this species of legislation for it has to pay for the music while the officeholders dance.

THE State republicans met in convention in Louisville yesterday and organized by the selection of Col. Goodloe temporary and permanent chairman. The prospect was that an Arthur delegation unopposed would be sent to the National Convention. John D. White was there, it is said, for the purpose of disposing of Commissioner Evans. Bill Bradley, of course, was on hand and as usual submitting to interviews. It is a mighty cold day when he doesn't seduce two or three reporters.

THE New York democrats have postponed their State Convention till the 21st of May in order to see what the republicans will do at Chicago. If Arthur is nominated and Tilden refuses still to be a candidate, Cleveland's claims will be pushed for all they are worth. The party that carries New York will take the presidency and it seems to us that if Cleveland is as popular now as when he was elected governor, he ought to be either at the head or tail of the ticket. His majority two years ago was 192,000.

THE card of Judge M. J. Durham, announcing his candidacy for Congress, subject to the action of the democracy, appears in this issue. In this district, where the Judge's name has been for so many years a household word, it is useless for us to add a sentence. He made us a good judge, a first-rate Congressman and if the people again honor him with their votes, they are sure that he will never prove recreant to any trust imposed upon him.

BOTH houses of the Legislature have agreed to adjourn sine die on the 12th. This will take in both the circus and the State Convention and the Louisville Commercial intimates that the grave solemn arranged it so purposely. The session will have been running 132 days, 72 over a constitutional provision and if there has been anything done of a tenth the value of the \$150,000 that it has cost, it does not appear on the record.

THE hanging festival, which it is hoped will begin with the execution of McHugh in Cincinnati to-day, was preceded Wednesday by a little private affair. Allen Ingalls, one of the fiends who murdered a whole family and then sold their bodies to a medical college for \$15, hung himself with a blanket, thereby saving the State expense and trouble of the neck breaking.

COLLECTOR A. M. SPOPE, after numerous and sundry resignations and a hard time generally with jealous men of his own party, is at last rid of his office. Mr. Charles Stoll, of Lexington, having been appointed to fill it. The Colonel has reflected credit on his native county of Lincoln in the management of the office, which has always rated first class.

THERE is now no doubt about the final passage of the Morrison tariff bill by the House. Since the masterly speeches of Hurd and others, there has been a considerable gain from the ranks of the Randall followers and it is claimed that at least nine republicans will vote for the bill.

THE prompt conviction and sentence to death of Neal, the last of the murderers and ravishers of the Gibbons children at Ashland, in a trial unattended by the military, will go far towards restoring respect for the law, if the Court of Appeals will let justice take its course.

BRADLEY has at last found a man he thinks he can crow over, but if Berkele is the man he looks to be he will not stand the published charge that his statements are "absolutely false" without testing the courage of his accuser.

THE office-holders succeeded in carrying Louisville for Arthur, but to do so knives, pistols and razors were brought into requisition. Such disgraceful scenes as were enacted were never known before.

THE Rev. Dr. Wild, of Toronto, after a life time of research, fixes the date of the beginning of the millennium at 1935. That time will suit this generation as well as any other.

THE Mercer Citizen, with West Cardwell as publisher and the old war horse, Nat. Galtner, as editor, will make its initial bow at Harrodsburg Saturday.

WE have no army to brag about but the little handful costs a lot of money, \$25,000, 000 a year. Every other man is an officer with big pay.

LEGISLATIVE DOINGS.

—The scalp law is deadlier than a door nail. The Senate did it by a vote of two to one.

—The Joint Legislative Committee has agreed to report in favor of appropriating \$15,000 for the State display at the Southern Exposition.

—The House was tinkering on the bill to create the county of Knott out of Breathitt and adjoining counties. We like to see Gov. Knott complimented but not at so great a cost to the State.

—The Governor has found a flaw in the bill to incorporate the Cincinnati, Green River & Nashville R. R. and a motion has been made to withdraw it from his hands and remedy the objection before he vetoes it.

—The Senate has passed Hallam's bill, which provides for ascertaining the legal number of voters in the State at the August election in 1885 by comparing the votes cast with those not voting as appearing on the poll books, the lists to be taken as the number entitled to vote at an election for a constitutional convention.

—Sadie Reigh, the young woman pleading guilty to having shot and killed Patrick Kingsley, head waiter at the Briggs House in Chicago, for defaming her character, was sentenced to a year and a half's imprisonment in the penitentiary. Not much sentimentality about that.

—In face of the lynching of two ravishers at Lebanon, Ky., two months ago, Rev. Johnson, a colored M. E. preacher, outraged the 14-year-old daughter of Sam Prewitt while she was in the act of making his bed. She had gone to clean his room. Prewitt got a gun to shoot Johnson, but Johnson had skipped.

—Iowa went solidly for Blaine, Vermont Edmunds, the New Hampshire delegation is divided between Edmunds, Blaine and Arthur and the straightout Virginia republicans instructed for Blaine and Lincoln. The vote now stands, Blaine 278; Arthur 231; Edmunds 52; Logan 50; Jno. Sherman 17; Joseph B. Hawley 12; doubtful, 14. Necessary to a choice 411.

—It was announced yesterday that the Spanish contract for Kentucky tobacco, involving 40,000 hogsheads, had been awarded, at about 8 cents a pound, to the Marquis De Campos, for whom a tobacco farm in this city act as agents. The value of tobacco is fully \$5,000,000, and the price is much higher than the Spanish Government paid two years ago.—[N. Y. Sun.

GARRARD COUNTY DEPARTMENT.

Lancaster.

—Henry Evans, Prof. Sam Cheek, Shack Lee, Wm. Moore and George Allen took tea with the young ladies visiting Judge Owsley's, Sunday. The Misses Engleman and Johnson returned to Danville Monday.

—A large number of delegates left Wednesday to attend the republican convention at Louisville. Indications show that Bradley will be elected delegate at large and Denny district delegate to the national convention which meets in Chicago in June.

—An effort will be made by the enterprising citizens of this place to have the streets of town lighted by coal oil or gasoline. The trustees will be petitioned to make an appropriation of \$400 or \$500 for this purpose, which, with a private subscription, will be ample to illuminate all the streets. Let the boom continue.

—Mr L. F. Hubble left Wednesday to visit New York City on business. He will be absent two weeks. Another party has been made up to visit Williamsburg this week on a fishing excursion. Among the number who left Wednesday night were Dr. Sam Burnside, A. O. Burnside, W. S. Ferguson and Robert Kinnaird.

—The Presbyterian congregation has purchased W. M. Kerby's property on Stanford street for a parsonage; price, \$2,750 cash. Rev. W. O. Goodloe will take immediate possession and will be installed pastor on the third Sabbath in May. Services will be conducted on that occasion by Revs. J. L. McKee and J. C. Randolph, of Danville, and Rev. Alex. Humphrey, of Louisville.

—Miss Mary Fennell, of Harrodsburg, was with Miss Lena Irvine. Howard Rice and Winston Wiseman were in town Sunday. Joe Embury and wife, of Silver Creek, were with Mrs. Joe Robinson last week. Dr. Dave Logan, the popular and attractive bachelor, of Boyle, is visiting Col. J. H. Bruce. He has many warm friends in our town, who are always delighted to welcome him back to his old home, where he practiced medicine for many years.

—Speeches were made by Durham and McCreary to large crowds at the courthouse Monday afternoon and it seemed as though the house was equally divided in their preferences. Those who are posted in political matters think that the vote of this county will be equally divided between the two in the district convention. A strong fight will be made by both gentlemen for the Garrard county delegation. Gov. McCreary is struggling for a solid vote.

—The protracted meeting at the Baptist church still continues. No accessions have as yet been made. However, the colored Baptists are putting in what may be considered good work by christians, but very bad for the farmers. They have had about 75 additions to the church and the same number of mourners are pretending to seek the Lord. Under such excitement they will neglect their work to seek Jesus and this they do by wandering over hills and hollows, through fields and thickets, expecting to see Him in reality. Their "experiences" are often fanciful and ludicrous.

—We have never witnessed a finer display of blooded stallions than that made on our streets county court day. All the fine horses from this and adjoining counties were here. Among the most prominent we noticed Banko, owned by F. F. Fox; Messenger Chief, owned by W. Curry; Ultimatus, the property of Denny & Walker; T. L. Crow's Saugler; Robt. Crow's Nobby; Wm. Dunn's Messenger Chief; Meunbriro King, Jr., property of Sam King; Spence Hubble's On Time; Peacock's Bolingbroke; Barney Wilkes, owned by Hutchings & Pope, and many other horses of less note. The only objection one could make to the majority of stallions of our country is that they are as a rule too small. All the horses shown were thoroughbreds.

—Prof. Lowber will lecture here Monday, Tuesday and Wednesday nights of next week.

—Mrs. Charlotta A. Green, with daughter and niece, have taken charge of the household of her brother, G. W. Givens, in this place.

—The rural districts have a healthy appreciation of this week's magnificent weather and are improving it with a zeal that leaves politics far in the rear.

—The news of the death of Mrs. Dr. R. W. Dunlap cast a gloom over the village. Bora and educated in this community, related to most of the families and endeared to all, we feel that in her loss we are under the shadow of a common calamity.

—Dr. Brown leaves Friday for Washington City to attend the meeting of the National Medical Association, which is to hold its session in that benighted locality. It is hoped by the more enthusiastic that the medicos may be able to make a scientific diagnosis of Uncle Sam's hygienic condition and prescribe the proper remedy. Brown says that bleeding is the only legitimate treatment in such a case, but points to the fact that politicians have a ring on

national phlebotomy and will not permit the doctors to interfere. There is some plausibility in this idea and U. S. will probably be compelled to leave his circulation in charge of the political vampire.

—Very little interest is excited here in the issues of the day. In fact there is a growing belief that this great Commonwealth has a mission to perform in the economy of nations and that it will survive until that mission shall have been accomplished. The tenure by which it holds its national existence is not as frail as to depend upon the fortuitous decisions of a single ballot box. The destruction of the nation in certain contingencies has been so frequently predicted and the survival in spite of these very contingencies has been so frequently witnessed that the bone and sinew of the county has lost faith in these gloomy forecasts. *Fido perpetua* is the motto in the truthfulness of which our people have confidence. This is a fair presentation of the tone of public sentiment here and I will not apologize for putting it forth.

Smart Weed and Belladonna combined with the other ingredients used in the best porous plasters make Carter's S. W. & B. Backache Plasters the best in the market. Price 25 cents.

LINCOLN COUNTY.

[From W. H. Miller's Real Estate Journal.]

BADLY needed at Stanford—a planing mill. It would live long and prosper.

No county in Kentucky has made greater progress in population and wealth since 1870 than Lincoln. See the statistics.

ENGLAND, Holland, Germany and Switzerland are represented in the immigration to Lincoln county during the last four months.

LINCOLN county continues in the lead as the lowest taxed county in the State. No county surpasses her in this respect and only one, Bourbon, equals her.

LINCOLN county has 56 miles of railroad and 124 miles of turnpike. Over one hundred bridges span her water courses. Her internal improvements cost over \$2,000,000.

In 1870 the population of Lincoln county was 10,947; in 1880, 15,080. (See census reports.) It is now over 17,000. There has been a great immigration to the country from every direction.

THERE is no inland town or city in Kentucky more eligibly situated and with more suitable advantages for manufacturing industries than Stanford. See the maps showing railroad connections.

REMEMBER that three great rival railroad companies, the Louisville & Nashville, the Cincinnati, New Orleans & Texas Pacific and the Chesapeake & Ohio, compete for the carrying trade of Lincoln county.

A BRIDGE will be built across Dix River this summer on the line of the Procherville turnpike, making four bridges across that stream in Lincoln county. Three more are needed and will be built as soon as the money can be spared from the county treasury. If the present progress in internal improvement is continued for five years longer Lincoln county will have a better system of roads and bridges than any county in Kentucky.

EVIDENCES OF PROSPERITY AND PROGRESS.—On January 1, 1879, the individual deposits in the banks in Stanford were \$206,456 03; on January 1, 1884, \$399,308 52. Increase in five years, \$192,852 49. Deeds recorded in 1878, 266; in 1883, 360; increase, 64. Civil suits instituted in 1878 in Circuit Court, 140; in 1883, 129; decrease 11. Business of all kinds makes as good a showing. It is safe to say that business in every branch of industry has increased in Lincoln county not less than 30 per cent. Nothing proves this more clearly than the increased amount of individual bank deposits, which shows also an extraordinary growth of wealth. The decrease in litigation, notwithstanding the great growth of business and increase of population, shows a high state of prosperity and ability to pay.

Our Tobacco Production.

The fifteen states of Kentucky, Virginia, Pennsylvania, Ohio, Tennessee, North Carolina, Maryland, Connecticut, Missouri, Wisconsin, Indiana, New York, Massachusetts, Illinois, and West Virginia, in the order named, still produce, as in 1870, more than ninety nine per cent. of the tobacco of the United States, though it is reported in twenty-two other States and Territories. Of these fifteen, only Missouri, Illinois, Indiana, and Massachusetts produced less than in 1870. Kentucky produces thirty-six per cent. of the total product of the country. Virginia holds the second place; Pennsylvania has advanced from twelfth to the third; and North Carolina, Connecticut, and New York have each gained one point in the rank of tobacco States. Those that have not retrograded in relative production are Massachusetts, Maryland and West Virginia, Indiana, Illinois, Missouri and Tennessee.—[Little Rock Gazette.]

SOUTHERN IRON.—The Courier-Journal announced one day last week that a leading iron producer in Tennessee had made a contract to furnish \$2,000,000 worth of pig-iron at \$10.50 to \$12.50 per ton. The Pennsylvania iron men when interviewed on the subject affected to laugh at the idea of iron being made at any such price. As there seems to be no doubt as to the correctness of the report, the smile of the Pennsylvania men must be converted into a case of dry grins. Gray forge iron is quoted at \$14 per ton in Chattanooga in open market. The South is able to sell iron cheap and to make money on it.—[Savannah News.]

A. P. Maupin, of Mason county, a tobacco raiser, settled in Woodford 1880. His crop of '80 was 13,500 pounds on 8½ acres, which he sold at 10½¢; second crop, spring of '81 dry year, 7,519 pounds on 10 acres, price 11¢; third crop, '82, 11,835 pounds on 10 acres, price, 12½¢; fourth crop, '83, 12,511 pounds on 12 acres, price 15¢.

G. T. Gaines, of Boone county, has 50 ewes which dropped 73 lambs, 70 of which are living, and are sold at \$4 each per head. Estimating each ewe's fleece this spring at \$1.25, will make them yield their owner \$8 per head this year.

The German Colony at Highland, Lincoln County.

It is with much gratification to us to publish the fact that this colony is meeting with extraordinary success. We were in a measure instrumental in locating this colony and it does us good to see that its success is assured.

Mr. Jacob Ottenheimer, of New York, the manager of the colony, is displaying energy, tact, good sense and fine business sagacity, ministerial and executive capacity generally in the conduct of its affairs and the company has done well in entrusting its business to his management and control.

Over 40 families have located and purchased homes and are doing well.

Mr. Ottenheimer has a competent assistant employed, whose business it is to assist in the purchase of live stock, farming implements and other supplies, and to instruct them in the methods of farming in this country.

The new-comers have been well received by our people and so far as we are informed (and we have taken some pains to instruct ourselves on this point) they are well pleased, contented and happy in their new homes.—[Real Estate Journal.]

INTERMITTENT FEVER.

This is the medical name for fever and ague; or rather, fever and ague is one form of intermittent fever. The name refers to the fact that the paroxysms come and go generally at regular intervals. There are three kinds of intermittent fevers—quotidian, in which they return every day; tertian, in which they return every other day; quartan, in which there are two days between their recurrence. A fourth kind, called erratic, occurs at irregular intervals.

Intermittent fevers are supposed to be caused by malaria. They mainly prevail in regions where the soil contains a large portion of decomposed matter.

In this country the disease has been confined chiefly to the West and South. New York and New England have known it almost wholly by report. For the last few years, however, it has shown itself in New York and Connecticut. This last summer it broke out as an extensive epidemic in Massachusetts and Rhode Island, seizing many victims in both of these States.

It is probable that the epidemic has a connection with the great lack of rain, which has left the bottoms of so many ponds and marshes bare, thus exposing a large amount of decayed matter. Periods of unwanted dryness are generally periods of various epidemics. The low water in the wells contains at such times a larger proportion of decomposed matter, for the water drains from a much wider area.

Intermittent fevers begin with a severe chill, during which the teeth chatter and the whole person shakes violently. The fever generally lasts several hours. The remedy is quinine, nourishment, rest and, where practicable, removal from the malarial region.—*Youth's Companion.*

BROTHER GARDNER'S LIME-KILN CLUB.

During the past week the Committee on Internal Harmony has been busy with pen and ink, and as a result Brother Gardner was asked to submit the following maxims to the club for adoption: "Adversity makes heroes; but we do not want any adversity."

"Misery lubs company; but de company hain't wort' seshatin' wid."

"De man obleeged to borrow an ax am nebbish situated to lend a spade."

"It's none o' yer bizness who licks next doah, if he doan't steal your wood."

"Bread cast upon de waters may return; but 8-per-cent. interest, wid a good indorser, am mo' like bizness."

"De man who kills your chickens am ready to respect you if you kill his dog."

Brother Gardner finished the reading, placed the paper under a weight, and then said:

"It seems to me dat abstract maxims am like woolen mittens in July. I have no doubt dat one could sot down an' call to mind 500 mottoes, maxims an' sayin's dat would read off very fine, but it would be a useless task. When you have told a man to be honest, industrious an' forgivin', you have got de essence of all de maxims ever written, an' you have given him all de burden he kin put up under. De work of de committee will not be lost, however. We will lay de maxims aside until an opportunity offers to send dem to some Common Council or odder public body."—*Detroit Free Press.*

OCCUPATIONS GONE.

Italy is losing ground. A great portion of the Italian macaroni used in this country is made in St. Louis. Little negro boys in this city almost monopolize the hand organ. The greater number of Italian opera singers are Americans, who are educated abroad and given queer names to satisfy the cultured foreigners. Louisiana cotton seed oil comes back very sweet in bottles from sunny Italy. American sculptors chisel most in Rome.—*New Orleans Picayune.*

Crow's Smuggler!

Is a dark mahogany bay horse, foaled June 14th, 1880; full 16 hands high; high style and good stallion points; was sired by the champion trotting stallion of the world, the renowned Smuggler, record 2:15½. First dam by Manbrino Starlight; 2d dam by Oliver, he by Wagoner; 3d dam by Warner; 4th dam Helen Fawcett by Imp. Tranby; 5th dam Nell Gwynne by Thornton Rattler; 6th dam by Imp. Tranby; 7th dam Nettleship by Imp. Spraggs; 8th dam by Shark; 9th dam by Imp. Janus. Thus we have all the desired elements—a combination of the highest type of trotting and racing blood, thoroughbred blood. Therefore Crow's Smuggler is a sure producer of speed and style as well as the highest type of combined blood. He has been trotted better than 2:15 and pace better than 2:35. SMUGGLER'S RECORD AGAINST THAT OF ALL OTHER LIVING STALLIONS.—The fastest first heat time, 2:15½; fastest second heat time, 2:17; fastest third heat, 2:19½; fastest fourth heat, 2:19½; fastest fifth heat, 2:17½. He beat Goldsmith Maid on her record at Cleveland, Ohio, considering that this was a competing race, desperately jockeyed and fought from beginning to end, with no favors shown but every advantage taken to defeat Smuggler, it stands second to no triumph ever won on the trotting turf. He sired the great filly that sold for \$10,000, also the fast gelding, Hawthorne. Pocahontas, another of the family, made a pacing record of 2:17½, and great weighing points. Young Pocahontas trotted a mile in 2:18; a half in 1:04½. Another of the great family, Strideway, trotted three consecutive heats in 2:19, 2:17½ and 2:15½, proving conclusively that the family of horses have shown a marked speed and wonderful endurance. It is safe to presume that such great enduring ability never appears without an inheritance.

Gentlemen, examine the stud books and you will find that CROW'S SMUGGLER traces seven times to Imp. Messenger and once to English Manbrino, the sire of Imp. Messenger. Manbrino Starlight's full sister, Lady Thorne, has a record of 2:20; his full brother, Woodlake, a record of 2:27½. In view of giving all satisfaction, I now offer this horse's services at the very low price of \$15 to insure a Mare in Foal, money due when the mare is mated, or mare parted with. The horse will stand at my stables, 4 miles west of Stanford, Ky., on the Stanford & Shelby City turnpike. Respectfully,

T. L. CROW.

I have the only colt of Crow's Smuggler's get, sold colt is a good one of a pure blood and is a fine runner; was foaled last May, goes all the trot, pace and racks very fast and goes the turning walk to perfection.

F. D. ALDRIGHT,

Stanford, Ky., Feb. 23, 1884.

NOBBY!

The sire of trotters, roadsters, and more fancy and first-class Eastern horses than any other stallion in Kentucky, will make the season at my stable, four miles west of Stanford, directly on the Knob

Lick pike, and will be permitted to serve mares at the extremely low price of \$20 the season or \$10 to insure. Parting with the mare forfeits the insurance. He is an excellent breeder and a sure fast gelder. Traces furnished at \$2 per copy. Due care taken to prevent accidents or escapes, but will not be responsible should any occur.

Description and Particulars.—Nobby is a jet black, with small star and two white feet, 16 hands 1 inch high, one mane and tail, g. body leg, beautiful head and neck, excellent shoulders, and loin—in fact faultless in symmetry and will guarantee there doesn't live a stallion possessed of a better disposition and these qualities he almost invariably imparts to his progeny. As an evidence that he will produce very fast horses when crossed on good mares is the fact that some of his very speediest have nothing but a mirage of evidence to recommend them. This of itself is conclusive proof that the speed comes from the sire. Scarcely a cold-blooded mare in the land has ever produced fast colts by him. Mr. Alex. Johnson says: "I have handled more of Nobby's colts than any man, and they are all fast." Mr. Purdon has one with little handling that is trotting his mile in 2:30, and says "no better class of horses can be raised."

Mr. F. D. Nims says no road is too long for any of them, and every one a seller." Warren Russell's Nobby made a record of 2:25 and was sold to W. C. Fair, Cleveland, Ohio, for \$5,000. If necessary could give numbers of testimonials from the best horse men of our country commending Nobby to the favorable consideration of all lovers of good horses, but will let the above suffice. Examine the horse, and if you are disposed to give him your patronage I will guarantee value received for your money. Nobby is by Garrard Chief, he by Manbrino Chief, he by Manbrino Paymaster, he by Manbrino, he by Imp. Messenger. Garrard Chief, dam, Dollie Dixon, by Frank; g. dam by Aratus; g. dam by Hambletonian; g. g. dam by Domino. Nobby's dam a thoroughbred and a Pickaway owned by B. F. Robinson, of Garrard county.
